

Where We Are – Week of June 14, 2009

1. Next Saturday, June 20th, Doug, Francie and I will be attending the second meeting of the Berkshire Summit. Please keep us in your prayers as we continue our conversations about how to discern and design the future of our Episcopal Churches in the Berkshire corridor.
2. We have paid two engineering bills. We are now ready to continue the conversation with legal counsel about access to some of the insurance claim dollars.
3. On Thursday, we received a draft report from Ryan Biggs. It is a draft, it is incomplete and an entire section is still being compiled. We are also sensitive to your having to wait to receive any information for a couple of weeks.

The areas of concern from the original report, which was the west wall, now number five, which Doug will detail for you:

- Stabilization and Rebuilding of the West Wall
- Remove and Rebuild Bulge Areas
- Reinforce Roof Trusses
- Reinforce Roof Pulins
- Reinforce Floor Girders

Doug has a drawing which shows the areas of concern. Please take a look at it at the coffee hour.

I realize you may have more questions and concerns. Will the members of the Vestry who are here today please stand up. Please see any of us

I would like to reiterate that this is a draft, incomplete report.

No decisions are being made.

We still do not have all of the information yet.

Please know that we are committed to informing you fully and keeping you in the loop, even when the news may not be what you would want to hear. Please keep us in your loop and let us know how you are doing.
